Walmart GoLocal

This was a two part project for Walmart. The goal of this project was to promote their delivery service for small businesses with a local targeted campaign. For Walmart, they wanted to launch this service as a test pilot in Tampa and Dallas.

Phase one of this campaign was to run digital ads a week prior to the direct mailers being sent out to promote the delivery service. The sizes for the digital ads were in three different sizes; 300x250, 728x90, and 160x600.

Phase two would be the direct mailer being sent to over 10,000 consumers and businesses all over Tampa and Dallas. The mailer was a 6x11" with full color on both sides.

This campaign design was a contract project from Safeguard by Innovative.

160x600

Sell on **Walmart.com** and boost demand for your business

Fast, local delivery to your customers with Walmart GoLocal

Pennsauken Township

I created the brand and identity for Pennsauken Township, NJ. Also worked on creating their letterhead design and presentation templates. With this branding, the key goal was to keep the history of Pennsauken Township while giving it a modern flare.

Upper Crust

Upper Crust is a pizza shop in Santa Cruz, California. They have been a staple in their community since 1979. In 2019 it was time for the next generation of the family to take over and also a rebrand. I was tasked with rebranding the family business and giving them a fresh look. Along with this branding project, also I created them a mascot and t-shirt designs.

aPlank

I developed a new website and created a product brochure for aPlank, aiming to showcase their work and generate leads for their sales team.

[VIEW WEBSITE](#)

CSI Philadelphia Chapter

I developed a new website for the CSI Philadelphia Chapter, incorporating an event calendar prominently displayed on the homepage. The goal was to enhance the user experience and make information more accessible.

[VIEW WEBSITE](#)

M&W Design Co.

I redesigned and developed the M&W Design website on the Shopify platform, seamlessly integrating wholesale shopping carts. Additionally, I created social media posts and designed their seasonal catalogs, taking product shots and crafting custom mockups for their products.

Neto's Pizza

Neto's Pizza is a brand I created. Learning about the food industry was a key part of this project. Their business create custom pizzas for their customers on the spot.

The brand consists of the logo, icon, pattern, distinct color theme and consistent use of fonts.

The pizza box was designed using only one color to save on the printing cost.

Neto's Pizza

I created the design and dieline for their menu. The idea behind this design was to show the reader, at a quick glance that Neto's Pizza was selling pizzas and salads.

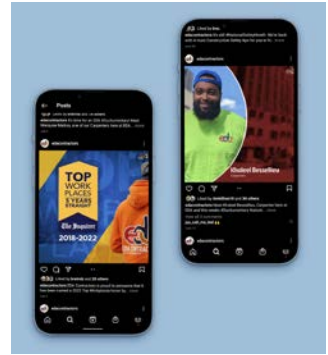

I ran ads in local magazines and also placed signs locally near the business. I design the signs to match the ads in the magazines. We ran a full page and a small square in some of these magazines local to Lancaster, PA.

EDA Contractors

I was hired to help build their marketing department. Since I've started, I have laid the foundation for the brand standards, filing systems, naming convention and design processes. One of my biggest projects I spearheaded was the launching of their new external and internal websites.

[VIEW WEBSITE](#)

Spot-It

I have worked on several different projects ranging from UI/UX, PowerPoint Templates, logo design for Spot-It Circle™, and website.

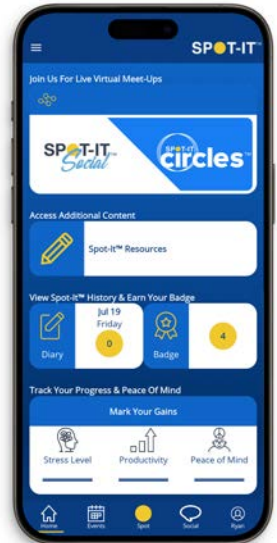

For the Spot-It™ app I created all the screens and over all design for the app. I worked with the dev team on developing the functionality and user's experience throughout the app.

Creating a custom PowerPoint template based around the Spot-It™ brand was also something I worked on. The PowerPoint template were designed with custom designed assets.

Spot-It Circle™ is network group for people are are trained in giving the Spot-It method presentation.
